## Silica Dust & Slurry Control - Products for Improving Productivity

<p><b>Dust Director®</b></p> <ul style="list-style-type: none"> <li>▶ Tuck Pointing</li> <li>▶ Wall Cutting</li> <li>▶ Crack Chasing</li> <li>▶ Joint Cleaning</li> </ul>  <p>Adjustable Positions</p>	 <p>- Complete Blade Visibility - 4" - 6" Blade Capacity</p>	 <p>96% Dust Control Efficiency Swivels on the grinder or locks into fixed cutting positions.</p>	<p>Extension Cover unsnaps to cut a wall's inside corner &amp; to cut into tight areas.</p> 
<p><b>5" Corner / Detail Surface Dust Guard</b></p> <ul style="list-style-type: none"> <li>▶ Concrete Grinding</li> <li>▶ Floor Polishing</li> <li>▶ Coatings Removal</li> </ul> 	 <p>5" Corner / Detail Guard grinds into Corners &amp; Along Wall Edges</p>	<p><b>7" Surface Dust Guard</b></p>  <p>Both the 5" and 7" Guards include insert collars for installation onto your angle grinder or polisher.</p>	<p><b>Portable Dust Control &amp; Containment Ventilation.</b> 24" Blower w/ 12,876 CFM. 4' x 10' Silica Dust Filtration, Collection Bag ~ Re-useable.</p> 
 <p><b>Diamond Router Bits - Glitter Bits®.</b> Grinds hard mortar, concrete, granite. Precise grinding in difficult areas . . . Finishes what a diamond blade can't.</p>	 <p><b>Glitter Bits:</b> Grinds vertical brick mortar joints, window &amp; door brick returns, etc.</p>	<p><b>Glitter Bits w/ Dust Control Attachment</b></p>  <p>96% Dust Control Efficiency</p>	 <p><b>Glitter Bits -</b> Individual brick removal from hard s-mortar within 6 minutes.</p>
<p><b>Complete Dust Control Mini Dustless Cut-Off Saw</b> 7" - 10" Blade Capacity 2" to 3-1/4" Depth-of-Cut</p>  <p>Light Weight - Easy Handling Wall &amp; Floor Cutting <b>Without the dust . . .</b></p>	<p><b>Coatings Removal</b> from concrete &amp; masonry - will not melt the coatings or load the discs.</p>  <p>Diamond Crystallized &amp; Abrasive Grinding ZEC Discs.</p>	<p><b>Fein Joint Sealant Cut-Out Tool -</b> Oscillating blade provides precise slicing as it removes caulk around windows. Various blades &amp; dust control attachment available.</p> 	<p><b>Diamond Blades Cup Wheels, Crack Chasing "V" Blades</b></p>  <ul style="list-style-type: none"> <li>▶ High Performance</li> <li>▶ Tuck Pointing Blades</li> <li>▶ Segmented Blades</li> <li>▶ Tornado Blades</li> </ul>
<p><b>18" Grinding Plate</b> accepts a variety of attachments for cleaning, grinding and removal of coating from concrete or metal floors.</p> 	 <p><b>USA Made Elite Soff-Cut Blade.</b> Attaches directly to saw's proprietary arbor. Blade footage &amp; cutting speed increased ~ Guaranteed. Skid Plate Protector included.</p>	<p><b>- Stellite® - Joint Sealant Cutter Blades</b></p>  <p>Removes soft &amp; hard sealant from concrete and masonry control joints. Sizes: 4-1/2", 6", 7", 12" <b>Without Melting the Sealant</b></p>	

## Dust Director Vacuums with Self-Cleaning AIRFlow HEPA Filtration:

- Never Stop to Unclog Filters! Never Turn-Off the Vacuum to Clean the Filter!
- Never Create a Mess ~ Even the tank stays clean! Maintain 100% Suction Power ~ *Guaranteed*.
- Tank's fill to capacity - Powder dust accumulates to the tank's inlet port for long operating times / improved production
- Non-Blinding Filtration: Motors operate efficiently, last longer without overheating (filters DO NOT BLIND)
- Assures Clean Air Exhaust / Long Motor Life: Motor head compartment stays completely clean from dust contamination.

Spend less Time Cleaning Filters & Emptying the Tank – and More Time Getting the Job Done

Filtration includes 2 Filter Systems ~ *It is your choice to use either one:*

**1. Self-Cleaning Flutter Filter Basket.** Vacuum operates without using filter bags. Filter is completely re-useable and washable. As soon as the vacuum is turned-on the filter begins to flutter and shake *naturally* - without using electronics. In constant Shake Motion, dry powders are kept from accumulating and caking the filter's surface - Vacuum's Powerful Suction is Maintained: *Self-Cleaning Naturally ~ Without using electronics.*

**2. Self-Cleaning Clean Extreme Filter Bags (3).** Filtration Efficiency: 96% efficiency @ 0.3 microns. **COLLECTS EVERYTHING - From Dry Powders to Wet Slurry - Even At the Same Time.** Extra Large Collection Capacity: Bags *completely* fill to the tank's inlet port - Without suction loss. HD breathable, fleece material will not tear or burst inside the tank like paper filter bags, even when collecting wet debris. **EVERYTHING IS KEPT CLEAN:** Outside of the bag, HEPA cartridge filter, even the tank is kept clean. **CLEAN / EASY DISPOSAL:** Removal & Disposal is Clean, Safe, Without Tearing & Without a Mess.

HEPA Cartridge Filter Stays Clean  
Everything Stays Clean . . .

Bags Do Not Burst . . .  
Collect Dry Powder to Wet Debris  
Without Changing the Bag

Large Collection Yields - To the tank's  
inlet port without suction drop

### Kut-N-Go 1-Motor

Lightweight,  
easy handling

- A+ for use on scaffold
- 10 gallon poly tank
- 12" x 28"
- 25 lbs.
- 40+ lb. dust capacity
- 8.5A, 136 CFM, 97" H2O

Extra Powerful Suction in a 12" Diameter Compact, Lightweight, Maneuverable Vacuum.

### Tuck Pointer 1-Motor

Lightweight,  
HD, Easy  
Handling

- A+ for use on scaffold
- 12 gallon HD poly tank
- 12" x 29"
- 28 lbs.
- 50+ lb. dust capacity
- 11.0A, 136 CFM, 66" H2O

2-Motor Power in a HD, Compact, Durable, 1-Motor Vacuum.

### Barrel Heads 2 & 3-Motor

Versatile -  
installs onto  
any 55 gallon  
drum.

Dry Debris  
**Concrete Slurry Extraction**

Large collection yields in self-contained drum for easy handling and disposal.

Versatile adaptor ring installs onto standard size drums.

### Reverse Air Filter Clean

• 3-Motor  
Suction w/  
Automatic  
Filter Cleaning

- 24 gallon tank holds 210 lbs. Dust
- Cyclone effect + shield further enhances long run times
- Dust bin dismounts quickly with roll-away wheels. **Use of plastic collection bags further enhances safety, convenience and economics of using these productive machines.**

### Dust Control 2 & 3-Motor

Grind all day  
without  
filter blinding or  
emptying the  
HD 24 gallon  
tank.

- 150 lbs. dust yield
- 2-Motor: 17.5A, 265 CFM
- 3-Motor: 19.5A, 295 CFM
- 3-Motor w/ 4" inlet: 407 CFM

3-Motor Vacuum operates Two (2) Dust Directors!

### Slurry Extraction Pump-Out Vacuum

Powerful  
2-Motor  
Suction

Internal  
Sump  
Pump  
provides  
Automatic  
Discharge  
Operation

A+ for  
Flood Control, Concrete Slurry  
and Heavy Sludge.

### Super Absorbent Slurry Solidify

Highly Concentrated: 2 cups (\$5.00) Solidifies 32 gallons of concrete slurry - Quickly. **Approved for Immediate Disposal in a Dumpster**

### Solid / Liquid Separation Portable Slurry Wastewater Processing Station

Separates  
solids from  
liquid of any  
viscosity.

- Compresses debris into caked plates for easy handling & disposal
- Automatically discharges crystal clear water for reuse or disposal

Processes 1 gallon slurry / minute
