Dust Director

Dustless Masonry & Concrete Cutting

Complete Blade Visibility

Designed for **Productivity**

Cuts Masonry & Concrete

- Without the Dust -

Tuck Pointing, Cut-Out Projects,
Crack Widening, Joint Cleaning, etc.

Complete Diamond Blade Visibility Completely view your work area for better control and accuracy of cut.

6" Diamond Blade Capacity

Accepts 3" to 6" diameter blades x 1/2" wide

Extension Cover unsnaps to cut the inside corner on a wall.

Multiple cutting positions. Adjust and positions on the angle grinder to your cutting style. Locks into fixed cutting positions or swivels on the angle grinder for increased versatility & performance.

<p>1-5/8" Max. Depth-of-Cut A+ for grinding recessed mortar joints (especially with protruding stone walls).</p>	<p>2" Diameter Dust Barrel Wide opening eliminates chunks of concrete or mortar from clogging inside the guard - reducing productivity.</p>
<p>Aluminum Construction Long lasting durability + lightweight Providing years of productive use.</p>	<p>Fits a Variety of Angle Grinders Installs onto the most common angle grinders using specific collars: Bosch, Hilti, Hitachi, Makita, Metabo</p>

Floor & Wall Chaser
