DUST CONTROL SURFACE *EDGE* DUST GUARDS

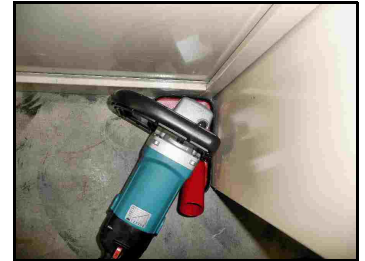

Work Easy . . . With these
Dustless Angle Grinder Guards

Performs beautiful as it floats across the floor like a hovercraft on a cushion of air ...

- Complete Dust Control -

The cup wheel actually floats across the surface with no scraping from the guard.

7" Surface *Edge* Dust Guard - Includes insert collar rings (3) to fit ALL 7" and 9" Angle Grinders. Also includes a steel Loop Handle that fits over the head of the grinder - provides better pressure, comfort, and control. [Along-the-Wall Results.](#)

5" Surface *Corner Edge* Dust Guard - Includes insert collars rings (2) to fit ALL 4.5", 5", and 6" angle grinders, and 7" Makita and Metabo Polishers. Variable speed grinders are recommended for even better dust control & adhesive coating removal results. [Along-the-Wall & Into-the-Corner Grinding Results.](#)

Smooth & Effortless Grinding. Designed to remove glue, paint, concrete, etc. from smooth or rough surfaces, such as concrete, masonry and wood, with superior dust pickup and easy handling.

Adjustable Rubber Seal. Contains the air flow under the hood - where the dust is generated - giving it superior dust pick-up. Adjustment is easy . . . simple hook-n-loop (velcro®) rubber seal.

Surface Dust Guard Wheels - Accepts *both* Diamond Cup Wheels & Abrasive ZEC Discs.

SEALANT REMOVAL WHEELS Two types of wheels: Abrasive and Diamond Crystallized. Both remove urethane, rubberized coatings, sealers, paint, epoxy, glue from concrete surfaces without load or clogging the wheel. Neither will melt the coating material.

DIAMOND SEALANT REMOVAL CUP WHEELS - One crystallized cup wheel will replace cases of ZEC Discs.
